Additionally, said WPAAB Personnel has used drones with green laser lights to follow him & shine light at him & his vehicles rather, on foot or on a vehicle, they have been in & out of the Plaintiff's attic and are believed now to be the exact same persons or personnel, whom has actually created tunnels in/under the Plaintiff's condo, along with also continuously planting or placing spy type devices, cameras & other devices inside, outside & around Plaintiff's (2 of 10) condo by putting such in the

Additionally, Plaintiff & his nine (9) yr. old cousin Addy (Adalene) Giles have called 911 over the chandeliers shaking, moving & rocking or the shadows of people outside of sliding doors on side of house/condo, "where Plaintiff has tried over & over again to get out & keep out the local police & WPA/B Personnel from his phone, go on side of house/condo, where they refuse to go." Plaintiff's little nine (9) year old cousin called 911 two (2) times.

while visiting us as she was in tears & crying and scared to death or about May or June 2022 "after" the May 5, 2022 house/corridor fire caused by someone believed to have dropped a cigarette butt through said foot hole in ceiling down to bedroom floor causing a piece of cardboard box leaning against wall to ignite & catch curtains and blinds on fire. The cardboard is used to block lights from shining through windows as every night drones hover above our condo & shine laser like lights into condo just like they do on from in attic by shining said light down in between walls and up underneath base boards. Upon police arrival on call 911 calls, they simply act like Plaintiff's wife (9) year old cousin was/is crazy.
